

## **Which Theoretically Would Bring the Most Glory to God, a Young Universe or an Old Universe?**

**But do not let this one fact escape your notice, beloved, that with the Lord one day is like a thousand years, and a thousand years like one day. (2 Peter 3:8)**

**For a thousand years in Your sight are like yesterday when it passes by, or as a watch in the night. (Ps 90:4)**

**If a thousand years are to God as a day and if the universe is 20,000 years old, the history of the universe to God would seem to be less than three weeks.**

**If a thousand years are to God as a day and if the universe is 10,000 years old, the history of the universe to God would seem to be a week and a half.**

**If a thousand years are to God as a day and if the universe is 13.77 billion years old,<sup>1</sup> the history of the universe to God would seem to be 13.77 million years.**
